Yas,its working in chrom and fire fox and edge

Does the website work on mobile devices?

Yas it workes in ios and android

4Content and Readability (4 points)

Are the fonts that have been chosen easy to read?

Yes, the font on the site is appropriate, but the problem is in the font format on the computer

Is there considerable contrast between the font color in the background color?

Relatively yes, because the site uses white, black and purple colors in terms of time, and they are all proportional to each other

? Is the text an appropriate size

yas also, You are free to choose. On the site there is an option for me to customize the font

? Is the content concise yet still useful

Yes, the site gives you the best livestream experience

write conclusion and at least three recommendations?

Twitch is the livestreaming site and entertainment, you can spend a nice time in it, but a lot of improvements such as

1- Facilitate the user interface

Like reduce that of icons from the homepage

2- The site is slow relatively

They must Use servers that receive many visitor

3- Improving the mobile application due to its slowness

They make the application not use much RAM
